PROJECTS

Title: Kid's Corner Learning Tool

GitHub: <https://github.com/Donnastjames/Project-1>

Deployed Link: <https://donnastjames.github.io/Project-1/>

- This is an application built as an educational tool for young children. The focus is to help them learn about the fifty States in a fun way through interactive play.
- My responsibilities included designing the second page and fetching data for the slideshow carousel. I also helped debug and test the application throughout the project.
- Languages used: HTML, CSS, JavaScript, UIKit (CSS framework)
- APIs used – Wikipedia, Pixabay, OpenWeather

Title: Weather Dashboard

GitHub: <https://github.com/Donnastjames/Weather-Dashboard>

Deployed Link: <https://donnastjames.github.io/Weather-Dashboard/>

- This is a weather application that allows the user to search for weather conditions for a specific city. It returns the daily conditions as well as a 5-day forecast.
- Languages used: HTML, CSS, JavaScript, Bootstrap (CSS Framework)
- API used - OpenWeather

Title: Timed Code Quiz

GitHub: <https://github.com/Donnastjames/Timed-Code-Quiz>

Deployed Link: <https://donnastjames.github.io/Timed-Code-Quiz/>

- This is a timed quiz that keeps score for each correct answer and deducts points as well as time for each incorrect answer. Both the score and user initials are stored in local storage at the end of the quiz.
- Languages used: HTML, CSS, and JavaScript
