A 24-week intensive program focused on gaining the technical skills described above.

AA in Economics, Cum Laude: Los Angeles Valley College, Los Angeles, CA (2003)

PROJECTS

Full Stack Developer Community

GitHub: <https://github.com/Donnastjames/Full-Stack-Developer-Community>

Deployed Link: <https://donnastjames.github.io/Weather-Dashboard/>

- This is a MERN stack application where web developers of all levels can come together to learn more about web development or contribute to the web development community. It is responsive by design making it mobile friendly
- Languages used: HTML, CSS, JavaScript, Bootstrap (CSS Framework)
- NPM packages used - React, React-player, Redux, Stripe, Apollo, Node.js, Express, AWS S3, GraphQL, MongoDB
- Deployed in Heroku

Gift List

GitHub: <https://github.com/Donnastjames/Project-2-Gift-List>

Deployed Link: <https://fullstackdevelopercommunity.herokuapp.com/>

- This is an application created as a group effort which allows users to keep track of gifts for family and friends
- My responsibilities included backend coding, debugging and test implementation using TestCafe.
- Language and packages used: JavaScript, MySQL, NodeJS, Express, Handlebars, bcrypt and TestCafe.

Kid's Corner Learning Tool

GitHub: <https://github.com/Donnastjames/Project-1>

Deployed Link: <https://donnastjames.github.io/Project-1/>

- This is an application built as an educational tool for young children. The focus is to help them learn about the fifty States in a fun way through interactive play.
- My responsibilities included designing the second page and fetching data for the slideshow carousel. I also helped debug and test the application throughout the project.
- Languages used: HTML, CSS, JavaScript, UIKit (CSS framework)
APIs used – Wikipedia, Pixabay, OpenWeather

EXPERIENCE
